Environmental Policy

Materials Movement Limited recognises that it has a responsibility for its environmental impact and will take positive steps to address this through our business operations. A key objective of the Company is to minimise any adverse environmental impact through good management, aiming for continuous improvement in environmental performance.

Materials Movement Limited is committed to the prevention of pollution and minimising the use of non-renewable resources where possible. In addition, we regard compliance with environmental law as a minimum standard and aim to exceed this where possible.

Recognising our responsibilities and commitment to the environment Materials Movement Limited undertakes to:

- Develop and implement an Environmental Management System (EMS) which meets the requirements of ISO14001: 2015.
- Understand and minimise the direct and indirect environmental impacts of our operations,
- Continue to measure our environmental targets, ensuring continual improvement by monitoring progress using formal auditing procedures where appropriate,
- Seek to minimise the impact of our operations on the environment using processes and practices to avoid, reduce or control the creation, emission or discharge of any type of pollutant or waste. We will dispose of waste through safe, legal and responsible means,
- Consider environmental issues when we modify or introduce new practices, processes or procedures,
- Improve our internal systems and work with external providers and customers to reduce environmental impacts across our business,
- Maintain a high level of awareness by providing training, information, communication and support for our workers, allowing them to support and implement these policies effectively,
- Investigate any environmental incident to discover its root cause and correct any deficiencies in our processes and procedures.

The aims and objectives of this Environmental Policy will be subject to, at a minimum, annual review by the Company's Management Team.
