- Establishing and enforcing safe methods of work.
- Recruiting and appointing personnel who have the skills, abilities and competence commensurate with their role and level of responsibility.
- Ensuring that tasks given to employees are within their skills, knowledge and ability to perform.
- Ensuring that technical competence is maintained through the provision of refresher training as appropriate.
- Promoting awareness of occupational health and safety and of good practice through the effective consultation and communications of relevant information, ensuring all persons within the organisation are made aware of their individual OH&S responsibilities.
- Identifying opportunities and needs for continual improvement of OH&S performance and the prevention of injury and ill health.
- Furnishing resources needed to meet these objectives.
